Profile

I am making the leap from the Athletic Therapy world to a career in Full Stack Web Development. During my studies, I dove into the intricacies of HTML, CSS, JavaScript, APIs, and database management. What really lights my fire in this field is the puzzle-solving aspect of every project – weaving together different pieces to create innovative and user-centric solutions in the ever-evolving digital landscape.

Skills

- Web development
- Problem solving
- Frontend development
- Git/GitHub
- HTML
- CSS
